

## SpectroNet Newsletter 03/2019

Dear Clusterpartner and Friends,

with this e-mail we want to bring you up to date on our last cluster activities. You will be informed about **upcoming SpectroNet events, new partners of our cluster, new job offers, fairs and seminars.**

ACADEMY FOR HYPERSPECTRAL IMAGING IN INDUSTRY  
23-24 MAY 2019 | GRAZ, AUSTRIA

perception park    icc spectronet.    SFG    enterprise europe network

Building on the success from the three previous chii Conferences, we are delighted to introduce an extension to the established chii Conference series this year.

**chii Academy** is the first event and platform of its kind, dedicated to knowledge transfer to engineers, apprentices and application users.

**chii Academy** focuses on technical aspects from an interdisciplinary viewpoint. Hyperspectral passionates benefit from a well balanced mix of knowledge from various disciplines. Hyperspectral veterans are welcome to present themselves as experts in a specific field.

The first **chii Academy** will take place in **Graz**, Austria from **23 - 24 May 2019**. The programme will be divided across lectures, workshops and consultation with experts, in addition to a social event on the first evening.

**Agenda & Registration**

## Successful OCM SpectroNet Collaboration Conference 2019

We want to say **THANK YOU** for the open and trustful collaboration within the SpectroNet Cluster. Our last Collaboration Conference in Karlsruhe brought us new insights on current research and developments as well as products and services on "**Photonic Sensors and Systems for Optical Characterization of Materials**".

More than **75 experts from 7 different countries** have participated the OCM SpectroNet Collaboration Conference 2019.

There were **29 presentations** within **3 sessions** and **9 exhibition tables**.

Speakers, Exhibitors and Participants of the OCM SpectroNet Collaboration Conference 2019, 12.03.2019, Karlsruhe, Germany
